

Executive General Manager

- **Industry leadership and advocacy opportunity**
- **Reporting to the Chair of Directors**
- **Flexible location (Brisbane, Sydney or Melbourne)**

About Us:

The Plastics Industry Pipe Association of Australia Limited (PIPA), is the peak organisation recognised for industry issues management, standards and the market development of safe and environmentally responsible plastics pipe systems in Australia

PIPA's technical committees develop a wide range of technical notes and guidelines that are referenced by industry bodies, government agencies, codes of practice and Australian Standards; PIPA is a nominating organisation to Standards Australia technical committees charged with the responsibility of developing contemporary Australian product and installation Standards.

PIPA aims to ensure that the environmental impact of plastics pipeline systems throughout their life cycle meets or exceeds legislative and community standards.

About the Role:

- In collaboration with the Chair and Directors, implement PIPA's strategy to protect and promote the use and reputation of long-life plastics pipe and fitting systems.
- Represent and advocate on behalf of the Australian plastics pipe industry members on all matters relating to plastics pipe systems, including relevant key public policy issues such as environmental sustainability.
- Maintain close relationships with key government and non-government stakeholders, and international plastics pipe industry associations.
- Direct and manage the technical program for PIPA including the management of the Technical Committees and the publication of industry documentation.
- Manage the financial affairs of the association.

About You:

- Qualifications or extensive experience in thermoplastics processing, plastics material properties and pipeline engineering, design or installation.
- Post-graduate qualifications in business or an engineering / polymer chemistry discipline are desirable, but not essential.
- Demonstrated strong interpersonal and communication skills and the ability to work effectively with a diverse range of stakeholders, including senior levels of government.
- Perceptive and astute with a talent for influencing and negotiating.
- Prior experience in an advocacy role within an industry association is desirable.
